

MYSTERY MATHEMATICS

1. Multiply the number of your brothers by 2
(If you have no brothers, multiply by 0)
2. Add 3
3. Multiply by 5
4. Add the number of your sisters
(If you have no sisters, add 0)
5. Multiply by 10
6. Add the number of living grandparents
(If you have no living grandparents, add 0)
7. Subtract 150

The answer is:

(Remember, zero is a number)

First digit = Number of brothers

Second digit = Number of sisters

Third digit = Number of living grandparents
